

ANA CAROLINA GOMES

Minas Gerais, Brazil | contato.carolpss@gmail.com | linkedin.com/in/anacpsg | ac-mkt.github.io

SUMMARY

Marketing & SEO professional specializing in Off-Page SEO, Digital PR and link acquisition for highly competitive, regulated global markets. Experienced in building strategic media partnerships and in using **Claude Code** and **Python** to create AI-assisted workflows that standardize link-building operations with built-in compliance checks. Recently completed the SEO Mastery specialization on Coursera (GenAI and GEO) and currently expanding into technical SEO audits and data analysis.

SKILLS

- **Off-Page SEO & Digital PR:** Link Building, Digital PR, Outreach, Partner Negotiation, Competitive Backlink Analysis, Content Briefs.
- **SEO & GEO:** Search Engine Optimization (SEO), On-Page SEO, Keyword Research, Search Intent, Content Marketing, E-E-A-T, Schema Markup (JSON-LD), Generative Engine Optimization (GEO), Answer Engine Optimization (AEO), Google AI Overviews.
- **AI & Automation:** Claude Code, Python (openpyxl), Prompt Engineering (role-based, few-shot, chain-of-thought), ChatGPT, Gemini, Perplexity.
- **Tools & Analytics:** Ahrefs, SEMrush, Google Search Console, Google Analytics, Excel.

PROFESSIONAL EXPERIENCE

Odds Scanner Group

SEO Off-Page Specialist | 07/24 - Present

- Managed off-page SEO and Digital PR campaigns in complex global markets, building partnerships with major publishers (e.g., OneFootball, Gazeta Esportiva) to increase brand visibility.
- Led multi-market link acquisition strategies, securing 250-300 high-authority backlinks per quarter to improve domain rating and organic traffic.
- Streamlined outreach operations and negotiated effectively with partners, reducing the average cost per link by 25%.
- Built and maintained relationships with 20+ media and affiliate partners, ensuring quality content and strategic alignment.
- Performed competitive backlink analysis to identify market gaps and develop targeted outreach strategies.
- Built and piloted an AI-assisted briefing workflow using Claude Code and Python (openpyxl) that turns an Excel input sheet into link-building briefs (title, H2/H3 outline, verified sources), preserving exact anchors and target URLs.
- Embedded country-specific gambling advertising compliance rules (CTAs, bonuses, mandatory disclaimers) into the workflow, flagging conflicts automatically; the UK and Spain pilot surfaced outdated disclaimers in the existing template.
- Applied data minimization when using LLMs, sending only required fields and excluding pricing, contacts and internal data.

Junior Off-Page Specialist | 09/23 - 07/24

- Executed targeted off-page SEO campaigns to build a high-quality backlink profile and improve search engine rankings.
- Tracked competitor performance to identify new link-building opportunities and refine PR strategies.
- Maintained communication with media partners and journalists to secure brand mentions and high-value placements.
- Collaborated with major regional publishers to plan and launch successful Digital PR initiatives.

GShield

SEO Intern | 02/23 - 09/23 | Belo Horizonte, Brazil

- Wrote SEO-optimized content and technical product descriptions for a high-traffic e-commerce site.
- Conducted on-page SEO audits and fixed technical issues to improve site crawlability and indexation.
- Monitored algorithm updates to adjust on-page strategies and maintain organic performance.
- Worked closely with cross-functional teams to align content strategies with commercial goals.

BrunSker Tecnologia

Marketing Intern | 09/22 - 11/22 | Belo Horizonte, Brazil

- Assisted in creating advertising materials and executing digital marketing campaigns.
- Researched market trends and consumer behavior to support marketing planning and decision-making.

PROJECTS

SEO, GenAI & GEO Capstone: GreenSip (fictional wellness tea brand)

SEO Mastery Specialization (Coursera) | 10/26

- Built a 6-keyword cluster (primary keyword: 33.1K monthly US searches) labeled by search intent, a single-page map to avoid cannibalization, and a full on-page plan: title tag, H1, H2/H3 outline, meta description, alt text, internal links and FAQs.
- Produced an ~800-word blog post from an AI draft (role-based, few-shot and chain-of-thought prompting), with human editing for factual accuracy, brand voice and readability on a YMYL health topic (evidence-based claims, safety section).
- Made the page answer-ready for AI search with a 40-60 word answer capsule below the H1, question-style H2s and a 6-question FAQ.
- Built BlogPosting and FAQPage JSON-LD without AI, including E-E-A-T identity signals (author, publisher, sameAs, @id); validated it with the Schema.org Validator and audited it for full consistency with on-page content.

EDUCATION

Universidade Estácio de Sá

Higher Education Degree (CST) in Marketing | 08/22 - 12/24

LANGUAGES

Portuguese (Native/C2) | English (C1) | Spanish (A1)
